Dear County and District Superintendents, Charter School Administrators, and School Principals:

Health Guidance for Schools During Extreme Heat

The California Department of Education is partnering with the California Department of Public Health (CDPH) to provide you with additional critical announcements to support California school communities during this period of intense heat.

Please find attached important information from the CDPH about the risks of heat events as well as ways to monitor conditions and take precautions to protect your school communities.

I encourage you to review and distribute relevant information to staff and families in order to promote healthy and safe learning environments.

Sincerely,

A handwritten signature in blue ink that reads "Tony Thurmond".

Tony Thurmond
State Superintendent of Public Instruction
